

OSNAP Innovation Proposal--SAMPLE

Date: August 7, 2013

Program: Springfield Afterschool

Area of focus: Serve water as a primary beverage

What is your goal?

Increase access to water during snack and physical activity time

How do you plan to get there?

- Purchase water pitchers, cups, and water bottles for the program
- Teach staff to encourage kids to drink water during snack time
- Set aside time before physical activity to allow kids to fill up water bottles

When will it happen?

We will make purchases by June 10. We will have a staff meeting to review messages on June 15 for 15 minutes before the program starts. We will try this new water system during our summer session.

Who is taking the lead?

Sarah will make all purchases. Sarah and Joe will lead staff meeting.

What materials/equipment etc will help you achieve your goal?

We will need to buy pitchers, cups, and water bottles.

What is your estimated budget?

5 pitchers (\$3 each) = \$15

40 water bottles (\$4 each) = \$160

Fruit and whole grain crackers for staff training = \$25
